

Project Profile

*...creating a
unique preschool
experience*

Little Turtle Preschool Macomb, Michigan

Chippewa Valley Schools asked AEW to design a 25,000-square-foot, one-story preschool complex with 16 classrooms to be built in Macomb Township. AEW knew that youngsters could be overwhelmed by the large size of the Little Turtle Preschool, so it created child-friendly features:

- Corridors have an individual schoolhouse appearance.
- Hallways are designed like streets, with lamp posts and scaled-down buildings identifying classrooms.
- Small child-size doors lead into multi-purpose spaces.

Construction was completed on time and the preschool was open to students in September 2006. Funding for the project was provided by Chippewa Valley Schools with a final cost of \$4,475,000.
